Personal Intro

RELEVANT EXPERIENCE

SOFTWARE ENGINEER | VENTURE HARBOUR | JUNE 2020 - SEPTEMBER 2022

I joined an ambitious team of engineers with a shared goal of planning, building, and maintaining multiple ventures at a fast-pace. Given the team's small size, we engaged in all aspects of the technical stack, effectively contributing to a diverse range of products. Our projects spanned from creating Electron and Slack applications to developing referral and SaaS-based platforms.

EDUCATION

UNIVERSITY OF MANCHESTER | MANCHESTER | 01/09/1999 - 01/07/2003

MChem (Hons) Chemistry with Industrial Experience - 2:1
